

Special Lecture(English)

"Plasma Processes for Elaboration on Biomaterials"

(Cosponsored by Versatile Innovative Plasma Science(VIPs),
Innovative Research Initiative, Tokyo Institute of Technology)

Summary: Professor Farzaneh Arefi-Khonsari has for many years researched a wide range of the plasma processes, focusing on plasma polymerization and plasma CVD. This lecture will be given on biomedical applications of atmospheric pressure plasma.

Date: May 27, 2014 (Tuesday) 15:30 - 16:30

Venue: Lecture Room 111, 1st floor, Main Building, Ookayama Campus

Guest Speaker: Professor Farzaneh Arefi-Khonsari (University of Paris VI, France)

Contact person: Shinsuke Mori smori@chemeng.titech.ac.jp
